

Fluropon® PVDF

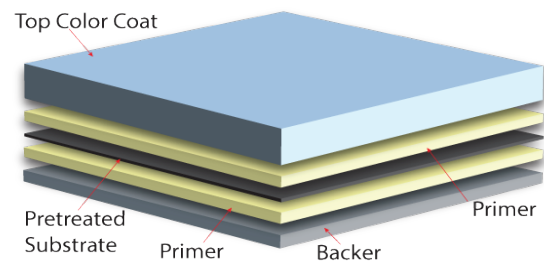

Fluropon®, a fluoropolymer alloy formulated by Sherwin-Williams, contains a 70% polyvinylidene difluoride (PVDF) resin. This premier two-coat system offers superior durability, UV protection and adhesion to the substrate.

PERFORMANCE BENEFITS

Flexibility and Formability
Color and Gloss Retention
Extreme Weathering Performance

With impressive durability and color consistency, Fluropon® meets or exceeds AAMA 2605 performance criteria.

LASTING RESISTANCE

Chemical Degradation
Ultraviolet Rays
Dirt and Stains
Chalk and Fade

PROUDLY FINISHED WITH
SHERWIN-WILLIAMS.
