

# Weather XL<sup>®</sup> Finish

Weather XL<sup>®</sup>, a specially formulated silicone-modified polyester coating, was created by Sherwin-Williams to withstand the elements. This extremely tough finish resists abrasion, chipping and marring, all while retaining its color and gloss.

## LASTING RESISTANCE

- Superior Weatherability
- Enduring Chalk, Fade and Scratch Resistance
- Exceptional Color & Gloss Retention
- Outstanding Color Consistency
- Proven Durability

Many Weather XL<sup>®</sup> colors are available in Solar Reflective formulations (SR) that meet ENERGY STAR and LEED certifications.
